

Statement by Alan O. Freeman, DMgt, FACHE  
President and CEO

## **Affinia Healthcare's Support for our Afghan Allies . . .**

Affinia Healthcare would be honored to serve as a patient-centered health home for our allies from Afghanistan who relocate to our region. We will align with the International Institute of St. Louis and other supportive organizations to help ensure the basic right to health care is extended to all who choose our trauma-informed services.
