COVID-19 Vaccine Boosters

January 11, 2022

The Centers for Disease Control (CDC) has issued recommendations for COVID-19 vaccine boosters, as follows:

Pfizer COVID-19 vaccine boosters can be received by individuals 12 years and older, **after 5 months or more from receiving the second dose.** A parent or guardian must be present for a minor under 18 years.

The Moderna COVID-19 vaccine boosters can be received by adults, **6 months or more after receiving the second dose.**

Johnson & Johnson COVID-19 vaccine booster can be received **2 months or more after receiving the first dose,** for individuals who are 18+ years old.

Eligible individuals **may choose which vaccine they receive as a booster dose,** as CDC recommendations now allow for this type of mix and match dosing for booster shots.

COVID-19 and Influenza (flu) Vaccines are provided at

Affinia Healthcare

1717 Biddle Street, St. Louis, Missouri 63106

Monday, Tuesday and Thursday

9 am to Noon (last vaccination at 11:45)

There is no out-of-pocket cost for COVID-19 vaccines. However, we do ask patients to provide their proof of I.D., and their health insurance information (if applicable), for billing purposes.

To make an appointment to receive a COVID-19 vaccine and/or flu vaccine at Affinia Healthcare visit our website at <https://affiniahealthcare.org/covid-19/>

Walk-ins are also welcome!
