To Our Dental Patients at Affinia Healthcare . . .

Over the past few weeks, Affinia Healthcare has been challenged to schedule an appointment for every dental patient who has made the request. We know that some of you are waiting to receive your appointment date and time. We do regret these inconveniences.

We want to assure our patients that we are working to recruit two additional dentists as soon as possible. Even though the overall supply of dentists nationally is strained, we are optimistic that we will be successful. Once these professionals are brought on board, Affinia Healthcare will be able to schedule and serve more patients at our various dental clinic locations.

I also want to take this opportunity to express our continued appreciation for the Missouri School of Dentistry and Oral Health (MOSDOH), our partner at the St. Louis Dental Center, located at 1500 Park Avenue in St. Louis. Since 2015, more than 33,000 Affinia Healthcare patients have received their dental care through this unique collaboration. And since 2017, MOSDOH has graduated more than 200 new dentists who were trained in part at the Dental Center, and who are now available to provide exceptional oral health care in communities across our state and the nation.

We thank you for your patience and understanding!

Alan O. Freeman, DMgt, FACHE
