

On May 4, 2022 U.S. Congresswoman Cori Bush presented Affinia Healthcare with an award of two million dollars (\$2M) in Congressionally-directed funding. This award is the largest among ten projects totaling over nine million dollars approved by Congress in March under Representative Bush's 2022 Community Funding Initiative for Missouri's 1st Congressional District.

The funds awarded are planned for investment toward the construction of a 15,000 sq. ft. community health center adjacent to the Emerson YMCA at 3390 Pershall in Ferguson.

Affinia Healthcare is extremely grateful to Congresswoman Bush for her outstanding support, which will help further vital access to high quality primary health care for vulnerable individuals in our region.
