HEALTHCARE

*Inspired by the Patients We Serve*

## **Quality Outcomes 2022**

**Compiled by Leslie Lake, Director, Quality**

# Diabetes Care

## Diabetes A1c < 8 (CMS 122v10)

**Our goal:** 60% of our patients with diabetes will reach and sustain an A1c less than 8

Our patients with diabetes have improved this measure by **6%** since 2020

Our patients with diabetes have improved significantly since 2020

**Our goal:** 20% of our patients with complete an annual retinal eye exam

**19%** more of our patients with diabetes have had a retinal eye exam than in 2020

# Cancer Screening

Cervical Cancer Screening  
(CMS 124v10) **Our Goal: 65%**

Between 2021 – 2022 we improved on this measure by **3.4%** to exceed our goal.

Breast Cancer Screening  
(CMS 125v10) **Our Goal: 47%**

Between 2021 – 2022 we improved on this measure by **4.4%** to exceed our goal.

Colorectal Cancer  
Screening (CMS 130v10)  
**Our Goal: 40%**

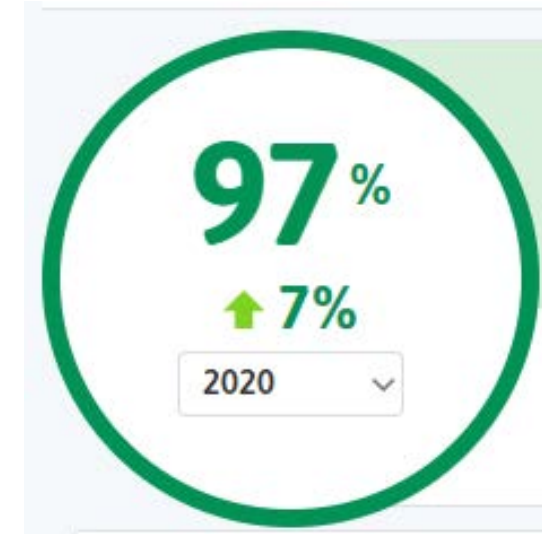

Between 2021 – 2022 we improved on this measure by **4.6%** to exceed our goal.

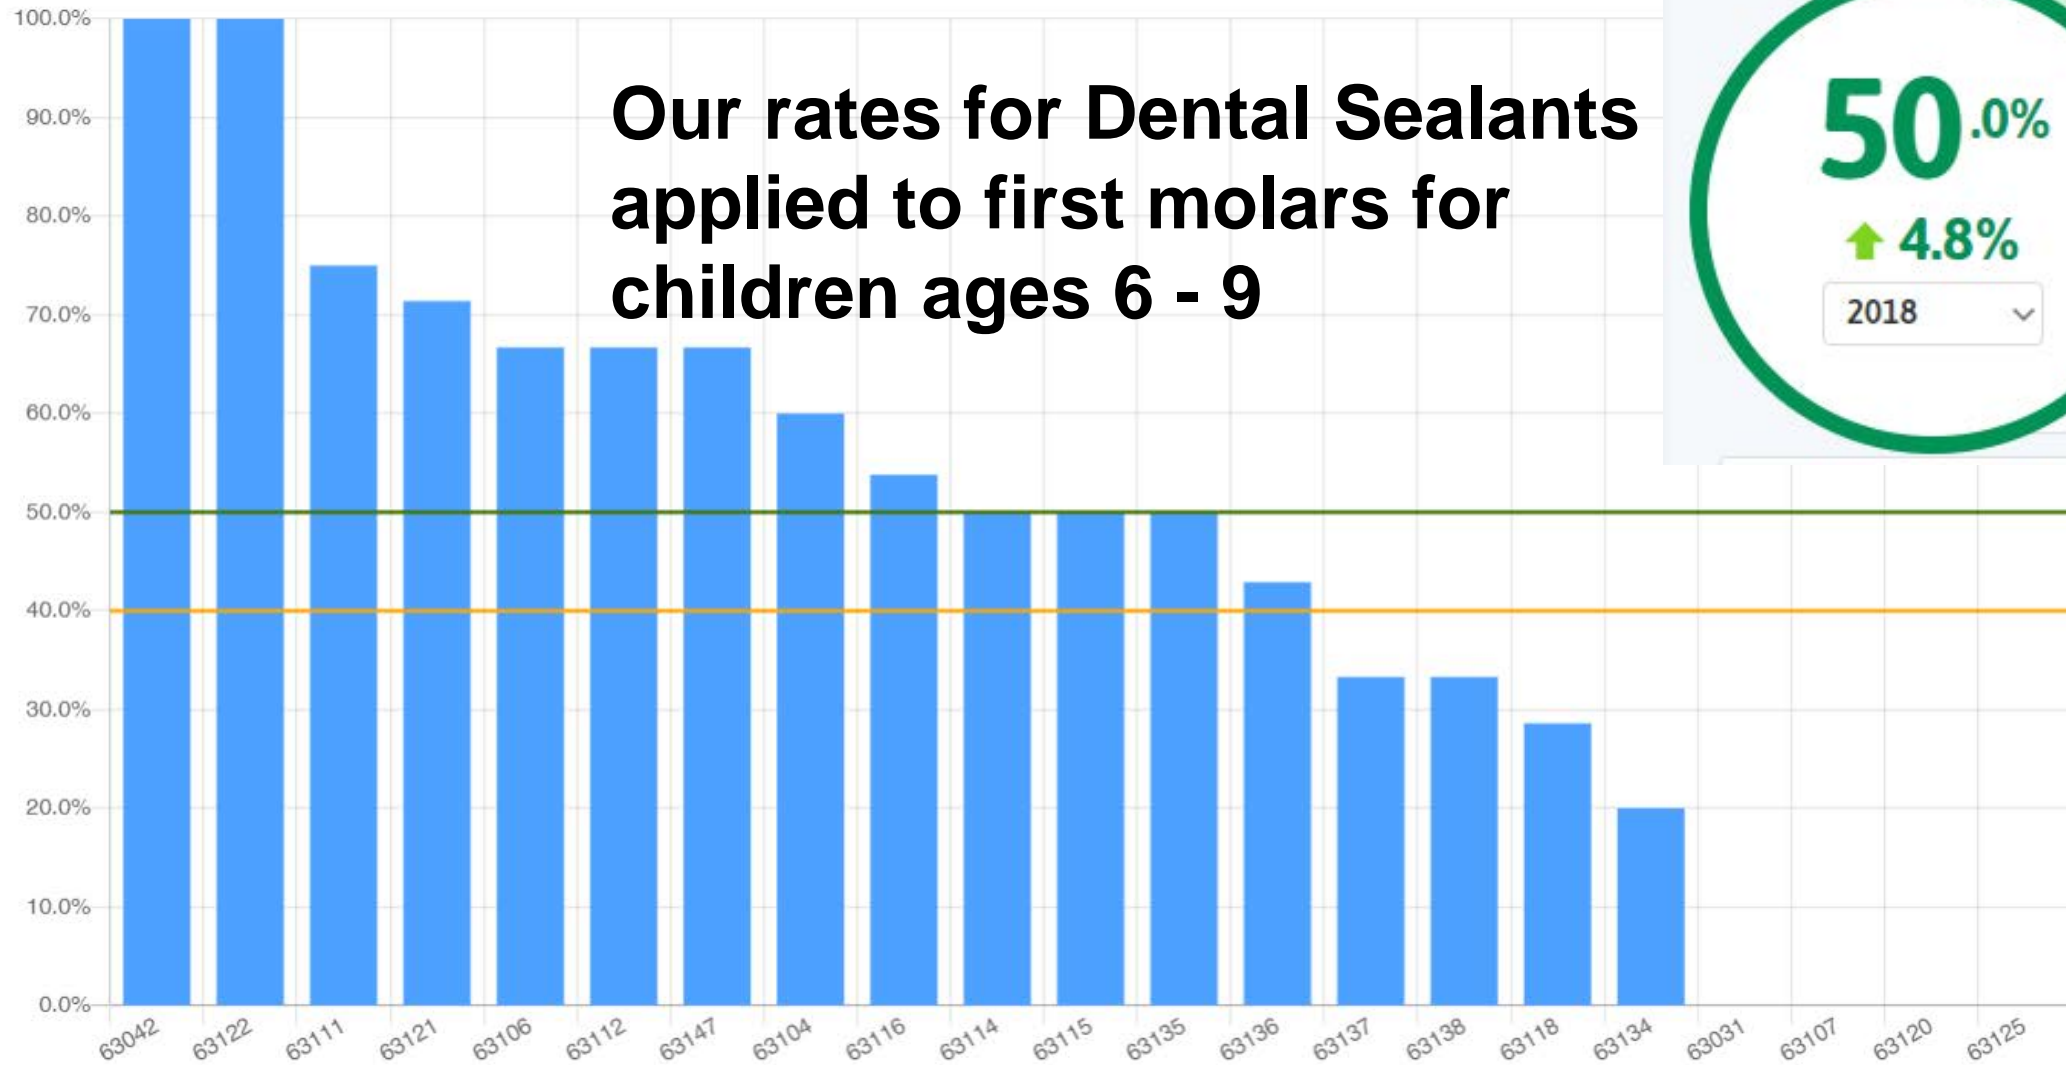

## Dental

Throughout 2022 our Pediatric medical practices began the application of fluoride varnish during well-child visits for children ages 6 months – 5 years and improved this measure over 2020 by **42%**

When we add the children in this age range who had fluoride application by dental services in 2022, a whopping **97%** of children received this dental protection.

The majority of the children who received dental sealants on their first molars in 2022 primarily represented these zip codes.

## Preventative care visits: Well-Child Care Visits

**Well-Child Care Visits** were provided to **46.7%** of all children *less than or equal to 15 months of age*

**Well-Child Care Visits** were provided to **55.6%** of all children between the *ages of 15 – 30 months*

**Well-Child Care Visits** were provided to **84.7%** of all children between *3 – 21 years of age*.  
This was a **13% increase** over 2020.

# Lead Screening

Lead Screening is an incredibly important tool for keeping our youth safe in the old, beautiful architecture of our city.

**Our Goal:** 75% of all toddlers will have their blood lead levels tested at least 1x before they reach 24 months of age.

In 2022, **79%** of our babies & toddlers completed a lead screening.
