

Construction Update

Rain Gardens Are Coming to Affinia Healthcare

1717 Biddle Street, St. Louis, MO 63106

WHAT

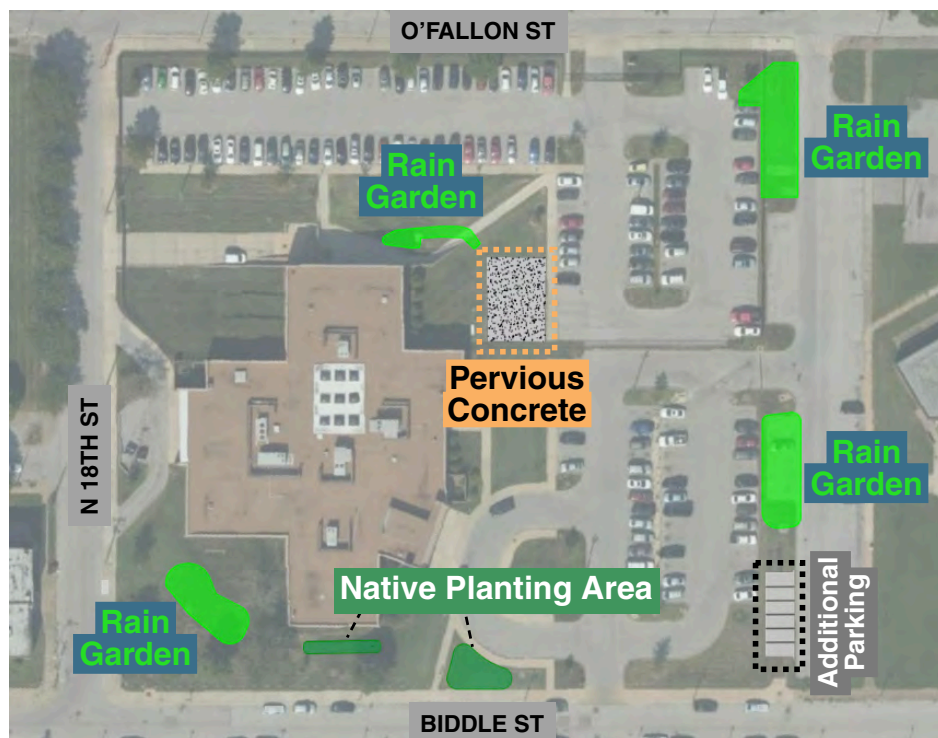

A rain garden is a bowl-shaped garden that captures and cleans rainwater using plants and special soils. We are building four rain gardens, two native planting areas and one pervious concrete area.

WHERE

In various locations surrounding the existing building, including in grassed / landscape areas and parking lot

WHEN

Jun.–Oct. 2025

These upgrades are funded through St. Louis Metropolitan Sewerage District's Rainscaping Large Grants Program. Scan to learn more.
